HAVING DIFFICULTY FINDING YOUR NHS PRESCRIPTION MEDICINE?

Call Hard To Find Medicines **FREE**
on **0800 567 0102** or visit
www.HardToFindMedicines.co.uk
and see if our experts can help.
FREE* service for NHS prescriptions only.

Hard To Find Medicines is a service to help NHS patients locate medicines for prescriptions they have been given by their NHS GP or Hospital Specialist, but which they are having difficulty in locating. We use extensive contacts in the pharmacy sector to locate stock, manufacture or import equivalent products. We will always discuss the options with the patient, and keep them informed of our progress.

If we can help you simply send us your prescription to our FREEPOST address and we send you the medication, appropriately dispensed and labelled, most items arriving within 72 hours of our receiving your prescription.
